

Linux Commands (24 Marks):

1. Stay where you are, list all the files and folders in your current directory (including hidden).

1. ls -a

```
faddu@cheese:~$ ls -a
.          .cache      .local      .templateengine  go          sleek-portfolio
..         .calc_history .motd_shown .viminfo          go1.25.4    spot-registration
.ServiceHub .config     .node_repl_history .vscode-server  hello.sh    test.js
.antigravity-server .copilot   .npm         .w3m             kalender    timer-app
.aspnet     .docker    .nuget       .wakatime        learning-git webcrawler
.aws        .dotnet    .nvim        .wakatime.cfg    mpv.exe
.azure      .gemin     .pki         .wget-hsts       portfolio
.bash_history .gitconfig .profile     2048             portfolio-2
.bash_logout .landscape .ssh         CFI-A26-FAHAD   practice-git
.bashrc     .lessht    .sudo_as_admin_successful doyouloveme     prephase1
```

2. In one command, create `dir1/dir2/dir3`. (dir3 is a subdirectory from dir2, and dir2 is a subdirectory from dir1).

2. mkdir -p dir1/dir2/dir3

```
faddu@cheese:~$ mkdir -p dir1/dir2/dir3
faddu@cheese:~$
```

3. Linux command to download a file from a URL? Ex:

`[https://www.w3schools.com/html/img\\_chania.jpg](https://www.w3schools.com/html/img_chania.jpg)`

3. curl -O https://www.w3schools.com/html/img_chania.jpg

```
faddu@cheese:~$ curl -O https://www.w3schools.com/html/img_chania.jpg
% Total    % Received % Xferd  Average Speed   Time    Time     Time  Current
           %             0         0     249k      0 --:--:-- --:--:-- --:--:--   252k
faddu@cheese:~$
```

4. What is the command to go to the parent directory of the current directory?

4. cd ..

5. What is an inode number?

5. Inode number is a unique integer identifier assigned to every file and directory

6. What is the one command to remove any directory and all files in it?

6. rm -rf dir1

7. Write a Script to Display the last line of a text file, ex: from the file `/etc/passwd`.

7. tail -n 1 ~/etc/passwd

```
faddu@cheese:~$ cd etc
faddu@cheese:~/etc$ ls
lastline.sh  passwd
faddu@cheese:~/etc$ cat passwd
this
is
a
password file
faddu@cheese:~/etc$ cat lastline.sh
#!/bin/bash
tail -n 1 ~/etc/passwd
faddu@cheese:~/etc$ cd
faddu@cheese:~$ bash ~/etc/lastline.sh
password file
faddu@cheese:~$
```

8. Use the `date` command to display the date in `YYYY/MM/DD` format.

8. date +%Y/%m/%d

```
faddu@cheese:~$ date +%Y/%m/%d
2026/03/01
faddu@cheese:~$
```

9. Explain the difference between:

- * `cp` and `mv`
- * `rm` and `rmdir`

9. cp - copies a file or folder

mv - moves or renames a file or folder

rm - deletes files

rmdir - deletes empty folders only

10. Explain the difference between:

- * `apt update` and `apt upgrade`

10. apt update - checks for available updates

apt upgrade - installs the updates

11. What is the difference between absolute path and relative path?

11. Absolute Path - The complete address of a file/folder from the very beginning of the filesystem

Relative path - path based on current folder

12. What is the command to install a package in Ubuntu/Linux command line?

12. sudo apt install package_name
